### WHAT IS THE CONTEXT?

Through this project, A.C.T.O.R. in partnership with educational and social institutions will provide a series of performances with educative character to children and youth which have no reach of theatre from social, economical, geographical or financial reasons.

## WHAT IS THE GOAL?

The "Vitamin T 16" goal is to help the participants to **develop activities destined to disadvantaged children and youth from hospitals, social centers, schools, kindergartens and high-schools of Bucharest and rural areas** - which will have as main purpose the promotion of **theatrical instruments to and for education** and the link to cultural diversity. An important dimension of the activities will be centered on the promoting among youth of democratic values, of active citizenship and of volunteering attitude.
