

## PROJECT AND NAME CONCEPT

The project **Citizen CAN** is based on the promotion and experience of active citizenship, the main field of work of AMC. Active citizenship is the attitude through which each individual can participate to the maximum of their intent in the democratic processes of their communities.

The project was approved by the Portuguese National Agency and is coordinated by AMC. AMC will send eight young people during 2018 for an EVS experience and will host eight international young people in our office and the youth centres we coordinate. Thirteen other partners are involved in the project, either as hosting organisation or as sending organisations. Their countries are: Azerbaijan, Finland, Georgia, Greece, Italy, Jordan, Kosovo, Malta, Poland, Portugal, Serbia, Sweden and Ukraine. The young people involved in these projects will experience different possibilities of engagement in the civil society, developing skills and facing many learning opportunities, becoming (even more) active citizens.

The **aims** of Citizen CAN are:

- to promote volunteering as a tool of civic participation and a mechanism that allows young people to acquire personal, social and professional skills;
- to bring non formal education closer to the structures of formal education, fostering the sharing of good practices, and values/attitudes of citizenship and empowerment;
- to foster the participation of young people in the democratic life, mainly in the protection of human rights.
